4. Optional Future Add-Ons (Optional Next Phases)

FUTURE ROADMAP

The ₹32,000 scope delivers a complete, fully operational boutique (with Shiprocket automation included). Should Vani Collection wish to expand in subsequent growth phases, the following optional add-ons can be integrated anytime:

WhatsApp Automated Order Notifications

Automated WhatsApp message sent directly to customer phones on order placed, dispatch tracking link, and out-for-delivery updates via Interakt / Wati API.

Native iOS & Android Mobile Apps

Dedicated mobile apps deployed to Apple App Store and Google Play Store syncing seamlessly with the existing database and admin console.

Multi-Currency International Checkout

Auto-detection of foreign visitors with real-time currency conversion (USD, AED, GBP, EUR) and international courier rate calculations.

AI Personal Stylist & Size Advisor

Interactive conversational AI assistant that suggests matching dupattas, jewelry, and exact size recommendations based on customer measurements.

5. Acceptance & Authorization

AGREEMENT

By signing below, both parties acknowledge and agree to the deliverables, the 10% / 60% / 30% milestone payment structure, the ₹299/mo platform fee, and project takeover terms defined in this proposal.
